

ANNOUNCING THE NEW USER-FRIENDLY CPSP WEB SITE – A PUBLIC HEALTH SERVICE RESOURCE

WHO will find the CPSP Web site useful/informative?

- CPSP participants
- Researchers interested in applying to the program
- Individuals who wish to know more about paediatric surveillance of rare diseases/conditions in Canada and throughout the world
- Parents of children who may have one of the rare diseases/conditions under study

WHY would I want to access the CPSP Web site?

- To learn about the program: its aims and objectives, history, organizational structure, and effectiveness
- To advance my knowledge on all or some of

the conditions under study

- To verify a study's case definition and protocol to confirm a diagnosis
- To find the criteria for inclusion of studies and format for submission
- To access study-related educational resource material and peer-reviewed journal articles
- To discover how the CPSP can influence public health action and policies to maintain and improve the health of all Canadians
- To read about international paediatric surveillance of rare diseases/conditions and hotlink to international Web sites

WHERE is the CPSP Web site?

- English: <www.cps.ca/english/cpsp>
- French: <www.cps.ca/francais/pcsp>

The Canadian Paediatric Surveillance Program is a joint project of the Canadian Paediatric Society and Health Canada's Centre for Infectious Disease Prevention and Control that undertakes the surveillance of rare diseases and conditions in children. For more information, visit <www.cps.ca/english/proadv/cpsp/cpsp.htm> or <www.cps.ca/francais/proadv/pcsp/pcsp.htm>
