SAVE THE DATE!

Are you a community member, researcher, academic, or clinician working with First Nations, Inuit, Métis, American Indian, Alaska Native or other Indigenous children and youth?

Plan to attend the only conference dedicated to the health and well-being of Indigenous children and youth in North America and around the world.

From mental health to infectious diseases, early childhood to adolescence, the International Meeting on Indigenous Child Health is a forum for exploring a range of health-promoting programs and strategies. We encourage presentations and posters that showcase community-based solutions to prevalent health problems.
